

F&M Bank has security protocols in place to help protect your accounts. If your debit card is used in a place that has a high probability of fraud, chances are certain transaction types may not be allowed. For your protection, unless notified of travel, we currently block all:

- International transactions
- Transactions originating in the state of New York
- Non-PIN transactions from Kroger, Rite Aid, and Walgreen's
- Non-PIN transactions from Walmart, Target, and grocery stores outside of Wisconsin and Minnesota.

If you are traveling internationally or out of the state, make sure to call us at 866-372-2126 with the dates and places of travel so you won't be inconvenienced by having to call us after the fact.

*Note: Debit Card blocks change periodically based on current fraud trends.*

To report your debit card lost or stolen outside of normal business hours, call 877-374-020.
